Education **Bachelor of Science in Philosophy with Honors; Minor in Applied Statistics, Nuclear Engineering and Systems Engineering Focuses**

United States Military Academy, West Point May 2013

While at the United States Military Academy, I achieved a 3.73 GPA and graduated in the top 10% of my class.

Intelligence Basic Officer Leadership Course

Ft. Huachuca, Arizona Intelligence Center of Excellence September 2013

The course focused on the military decision making process and intelligence preparation of the battlefield. As such, future intelligence leaders learned how to integrate complex data geopolitically to enable tactical and operational level leaders to achieve desired battlefield effects.

Information Collection Planners Course-Honor Graduate

Ft. Huachuca, Arizona Intelligence Center of Excellence May 2017

The course focused on integration and synchronization of intelligence collection assets from the strategic to tactical levels in support of mission operations. Key learning objectives included understanding collection asset capabilities for: satellites, aerial and ground assets.

Maneuver Captains Career Course (MCCC)

Ft. Benning, Georgia Maneuver Center of Excellence June-December, 2017

Selected as a Military Intelligence Officer in the top 20% in order of merit to attend MCCC under the branch mix program. The course focused on integration of all branches within the Army to ensure tactical success. Attendees gained leadership skills designed for the company commanders and operations officers of maneuver units. Skill sets included tactical data analysis, management, and application.

Honors and Publications

Student Council Ring and Crest Chairperson (event planning and class ring design), 2009-2013 Company First Sergeant, first semester 2011

Russian in Cultural Context in Ukraine, June, 2011

Australian American Young Leader Dialogue, 2014

"Cyberwarfare in the Tactical Battlespace: An Intelligence Officer's Perspective" published in the April issue of *Infantry Magazine*

Experience

Platoon Leader

502nd Military Intelligence Battalion
Joint Base Lewis-McChord, Washington
December 2013-January 2015

Led a highly competent twelve Soldier, multi-disciplined team. Successfully completed numerous training missions focusing on intelligence collection and data analysis from both human and technological sources. Performed real-time analysis to enable immediate additional operations.

Battalion Assistant S2

4-23 Infantry Battalion/ 2-2 Stryker Brigade Combat Team
Joint Base Lewis-McChord, Washington
January 2015-April 2016

Led a team of nine intelligence analysts who supported two multi-national exercises with Japan and Thailand. The team focused on intelligence collection and analysis distributed on a geospatial communications network supporting real-world objectives. I received special recognition honors for work with the Royal Thai Army during Operation Hanuman Guardian in Thailand.

Brigade Administrative Officer

201st Expeditionary Military Intelligence Brigade
Joint Base Lewis-McChord, Washington
April 2016-March 2017

I supported Brigade personnel operations and personnel data management for over 700 team members.

Intelligence Chief of Operations

Joint Special Operations Command, Afghanistan
January 2017-present

Augmenting the Joint Special Operations Command as an intelligence chief of operations on deployment. I work with partners from a variety of intelligence agencies to enable intelligence integration and information sharing in real time supporting tactical operations which enable strategic objectives. I also serve as an analytical touchpoint to incorporate data analysis tools in real time to enable operations. I will serve in the role for three to four months before transitioning to 2nd Infantry Brigade Combat Team at Fort Carson, CO where I will serve as a Battalion Intelligence Officer.

Battalion S2-Senior Intelligence Analyst

2-12 Infantry Battalion/ 2nd Infantry Brigade Combat Team
Ft. Carson, CO
June 2018-Present

Led a team of six intelligence analysts who support operations in a forward deployed environment (Afghanistan) across theater. Enable mission support from intelligence collection, through exploitation and analysis to ensure mission success.
